

WYOMING ADMISSION BILL.

It Passes the House After a Spirited Debate.

TRUSTS AND LABOR UNIONS.

Edmunds Argues That One is as Reasonable as the Other—Sherman's Anti-Trust Bill Referred for Twenty Days.

SENATE. WASHINGTON, March 27.—In the senate today the house bill to amend the census act of March 3, 1875, was passed. The amendment allows special \$1 a day for subsistence when traveling.

Among the bills reported from the committee on the calendar were the following: The house bill constituting Cairo, Ill., a port of delivery; the senate bill to authorize the construction of a bridge across the Mississippi river between the mouths of the Illinois and Missouri rivers.

Mr. Hawley, from the committee on military affairs, reported back the house bill authorizing the purchase of 500 tons of coal for the use of the army.

The anti-trust bill was then taken up, when an amendment offered from the provisions of the bill relating to workmen and farmers was offered.

Mr. Edmunds spoke at some length. He favored, as far as the constitution permitted, the suppression and breaking up of trusts and monopolies. He said that if capital combined to regulate wages workmen would also combine to defend themselves, and in the country and other countries for the last forty years had been turned into camps of opposition where they ought to be only one of cooperative friends.

A DISASTROUS EXPLOSION.

Part of the Chicago Sugar Refinery's Plant Destroyed.

SPONTANEOUS COMBUSTION THE CAUSE.

By Prompt Work the Bruised and Bleeding Victims are Rescued From the Ruins—Only One Fatality So Far.

CHICAGO, March 27.—A disastrous explosion occurred this evening in the Chicago sugar refinery company's plant on Taylor and Beach streets. One man was fatally hurt and twenty others severely burned.

The explosion occurred in the starch drying room, and is supposed to have been caused by spontaneous combustion. A similar explosion occurred a year ago, resulting in the fatal injury of one man. The building where the explosion occurred today is a two-story brick, separated from the main thirteen-story building.

Twenty-seven men were at work in the starch room when the explosion came. The report, followed by flashes of fire and the trembling of falling timber. Shattered portions of the building and machinery were hurled in every direction and the workmen were buried beneath the mass of debris, which took fire. Two hundred men employed in the main building were hurried to the scene, and the victims were rescued as rapidly as possible. The cries of their imprisoned fellow laborers brought them to the scene, and the fire was subdued in a short time by the fire engine.

The men, while painfully burned and bruised, are not thought to be in danger of death. The pecuniary loss by the explosion is about \$10,000.

PROPOSED BY TELEGRAPH. The Denver Heiress Accepted, But Afterward Reported the Contract Was Not Fulfilled.

DENVER, Colo., March 27.—Society has not finished discussing the Thrift-Clark wedding that did not take place, and many different stories regarding the affair have been circulated. The facts, as learned from an immediate friend and one of the invited guests, are that Miss Clara Clark, who has an annual income of \$10,000, on her return from Europe nearly a year ago, stopped at Lima, O., to visit friends. There she met young Thrift, who is a bank clerk. The pleasant acquaintance formed was continued after her return to Denver by means of correspondence.

The lady, who is twenty-eight years of age, was a student at the University of Chicago, when she was introduced to Thrift, who was then a student at the University of Chicago. They were introduced by mutual friends, and their acquaintance was continued by correspondence.

TRYING TO FIX THE TARIFF.

Twine Manufacturers Protest Against a Reduction.

SUGAR SCHEDULE AGITATION.

Iowa's Delegation Leads in the Fight for Free Sweetening—Cherokee Cattlemen Trying to Stay.

WASHINGTON, D. C., March 27.—A lot of gentlemen interested in the manufacture of reaper twine were heard today by the republican members of the committee on ways and means in relation to the tariff. The committee wants to make material for reaper twine free, but the manufacturers are protesting.

The object in making this twine free is to render still further assistance to the farmers who have in various forms appealed to congress during the last democratic administration for this relief. The republican members say they are immovable.

There has been nothing done today by the republicans in the way of a final agreement on the tariff. The prospects are that the bill will be presented to the full committee within two days.

The republicans of Iowa are having a very perceptible effect upon the republican members of the committee by demanding that there shall be no reductions of the internal taxes as long as any duty on sugar is retained.

The Iowa people are apparently not in favor of free sugar. They are in favor of the repeal of the whiskey and retail licenses but they are unalterably opposed to a reduction of the sugar tariff.

Mr. Lofollette of Wisconsin, who is one of the republican members of the committee on ways and means, is fighting for free sugar. He said: "One thing is sure, there will not be an increase of the duty on sugar."

A RINGING PRONCIAMENTO.

Action of a Prominent Gathering of Republicans at Lincoln.

A MAGNIFICENT HOSTELRY.

Formal Opening of the Splendid New Hotel Riley at Plattsmouth—A Jury-Bribing Sensation at Rushville.

THE BUGLE HAS BLOWN. LINCOLN, Neb., March 27.—[Special Telegram to The Bee.]—An informal meeting of prominent republicans from different parts of the state was held at the Capital hotel tonight. Its purpose is manifest in the following manifesto, which was adopted by the full voice of the meeting.

Feeling that the time has come when an earnest protest should be made against the attempt to corrupt the republican party, we, the undersigned, do hereby protest against the exorbitant freight rates now charged in our state. Our republican platform contains pledges to the people that a reduction in local freight rates shall be made, which promise remains unfulfilled. The railroad corporations have for years controlled our republican conventions, and have used their power to elect men who are not republicans in principle.

As all power resides with the people, we call upon you to exercise it through your representatives in the legislature, and to the legislature who will be free from the control of hired lobbyists and corporation attorneys.

To the end that these existing evils may be remedied and the masses of the republican party may have an opportunity to learn the character and examine the records of their representatives in the legislature, we demand from the state central committee an early state convention, not later than the first of May, 1890, and that the members of the delegation present be permitted to cast the vote of absent delegates.

Resolved, That we will not support any candidate for the legislature who has been convicted of bribery, or who has been convicted of any crime involving moral turpitude, or who has been convicted of any crime involving moral turpitude.

Resolved, That we will not support any candidate for the legislature who has been convicted of bribery, or who has been convicted of any crime involving moral turpitude, or who has been convicted of any crime involving moral turpitude.

Resolved, That we will not support any candidate for the legislature who has been convicted of bribery, or who has been convicted of any crime involving moral turpitude, or who has been convicted of any crime involving moral turpitude.
